That would work; anytime after 10:00 is fine so can we maybe shoot for 12:00 or 1:00 Alaska Time?

Hi Jamey: It turns out that Heather and I will be in another teleconference from 9:00 am to 10:30 am Alaska Time (10:00am - 11:30am PST). Any chance we can meet after our first call or in the afternoon?

Hi guys,

I talked with Katherine and next Tuesday after 10:00 am PST would work for us. Let me know a time that works for the both of you and I will send out an invite. Thanks!

I would say the sooner the better. Next Tuesday would work for me and I will check with Katherine too.
Thanks.

Thanks Jamie, next Tuesday is the only day next week that I will be available. The next available time would be the week of May 29 with the exception of Monday. What's your pleasure?

Subject: Update on Site Specific Criteria

Hi Rob,

Good talking with you today. As I mentioned during the call as well as last week, there has been some movement from the State re: their site specific water quality criteria proposal for Chuitna. My understanding is that the State has been in some discussions with our WQS group and has indicated that they are trying to go out for public review of their proposal within the next month or so. I believe there is then a 30 day public review and comment period, response to comments, and then the State can take the action of promulgating the revision into their WQS. Once promulgated into their WQS they would then request formal EPA review and approval before being able to use those revised standards in the context of CWA permitting.

As we discussed, let me know when would be a good time to get together over a conference call to discuss this. I am pretty open the next couple weeks if you would like to coordinate with Heather and let me know a few dates that work for you guys (and any other NVT reps) I will set something up for us. Thanks!
